RE: True North Project Application for Rights-of-Way, Upland Mining Lease
ADL 672204, and Approval of Plan of Operations.

Dear Messrs. LeFebvre and Planchon:

Fairbanks Gold Mining, Inc. (FGMI) submits the attached applications, supporting documents, and application fees (Check Nos. 033182 and 033161) to initiate the permitting process for the True North Project. The attached information accurately describes the proposed operation, but additional work and results of analyses will further clarify the project. Any new information that becomes available will be submitted to you to assist in your evaluation of the project as well as that of the general public and specifically those stakeholders in close proximity of the proposed activities. The Socioeconomic Report for the True North Project is one such document that will be forwarded to your respective offices on or before April 3, 2000 as an addendum to this application.

If you have any question or require additional information, please call me.

Respectfully,

William R. Jeffress
Manager - Environmental Services

Is applicant a nonprofit cooperative association? ☐ yes ☒ no. If yes, are you applying for an exemption under AS 38.05.850(B)? ☐ yes ☐ no. If yes, please submit proof of nonprofit status (e.g. by-laws, articles of incorporation, tax statement).

Legal Description/Location of activity: Sec. 33, 34, 36 T3N, R1E, Fairbanks Meridian (See Exhibit A and B)

Municipality Fairbanks North Star Borough, (attach extra sheets as needed)

Total length of applied for R/W/E feet: Powerline length 2,000-feet, Roadway length 9,000-feet

Total width of applied for R/W/E feet: Powerline width 30-feet, Roadway width 100-feet

Acres encompassed by R/W/E: 22.04 (43,560 square feet = 1 acre)

Purpose of Right-of-Way/Easement, (e.g. Utility, Road, Bridge, Airstrip/Airport, Driveway, Trail, Drainage), and type of anticipated traffic, (e.g. plane, truck, heavy equipment): Explain The purpose of the Right-of-Way is to design, construct, use, maintain, and reclaim (if necessary) a new or an improved road from the True North Project to the Steese Highway, and from the Steese Highway to the Fort Knox Mine. Light vehicles and conventional highway tractor trucks pulling 60 to 120-ton trailers will use the True North Project access road.

Are you applying for a Public R/W/E? ☐ yes ☒ no. Private R/W/E? ☒ yes ☐ no (Annual Fee Required for private R/W/E)

State briefly the standards and methods of construction: i.e., regulated standards, winter trail, dirt trail, gravel road, paved road, etc.; clearing by hand, clearing/construction by mechanical equipment (state type of equipment to be used, e.g. J.D. 350, 944 F.E. loader, hydro axe, D-8), or establish by use only.

The access road will be constructed of gravels, and the clearing and construction will be preformed with the use of dozers, scrapers, compactors, graders, water trucks, and dump trucks. Topsoil will be stockpiled and used during the reclamation phase of the project. The access road will follow existing roads wherever possible.

See 11 AAC 05.010 regarding fees for federal, state, and local government agencies

Date Stamp:

Is this an existing use? [☒] yes [] no. If yes, provide documentation verifying existing use, such as easement atlas, affidavits attesting to use and existence, pictures, etc. RST 1930, and RST 1932 (See attached maps and documents)

Construction to begin: June 15, 2000

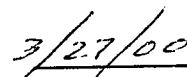

Construction to be completed by: August 31, 2000

Other permits or authorizations applied for in conjunction with this proposed project: Alaska Mental Health Trust Land Right-of-Way Permit, and Fairbanks North Star Borough Platting Board Approval; U.S. Army Corps of Engineers review and approval.

If this authorization is granted, I agree to construct and maintain the improvements authorized in a workmanlike manner, and to keep the area in a neat and sanitary condition; if the right-of-way or easement improvements are to be constructed across leased lands, I agree to reimburse the lessee for all damages to crops and improvements, to the extent of the construction of this right-of-way or easement, and to comply with all the laws, rules, and regulations pertaining thereto; and provided further that upon termination or relocation of the right-of-way or easement for which application is being made, I agree to remove or relocate the improvements and restore the area without cost to the state and to the satisfaction of the Director of the Division of Land.

Signature of Applicant

Date

Attach a USGS map (scale of 1:63,360) or a state status plat showing the location of the right-of-way or easement, and an environmental risk assessment questionnaire (form 102-4008A).

The final granting of the right-of-way or easement will be contingent upon our receipt of a plat depicting the post construction location of the improvements. If your application is approved, instructions for the completion of the plat will be provided to you, or can be picked up at any of our offices.

AS 38.05.035(a) authorizes the director to decide what information is needed to process an application for the sale or use of state land and resources. This information is made a part of the state public land records and becomes public information under AS 09.25.110 and 09.25.120 (unless the information qualifies for confidentiality under AS 38.05.035(a)(9) and confidentiality is requested). Public information is open to inspection by you or any member of the public. A person who is the subject of the information may challenge its accuracy or completeness under AS 44.99.310, by giving a written description of the challenged information, the changes needed to correct it, and a name and address where the person can be reached. False statements made in an application for a benefit are punishable under AS 11.56.210.

STATE OF ALASKA DEPARTMENT OF NATURAL RESOURCES DIVISION OF LAND

APPLICANT ENVIRONMENTAL RISK QUESTIONNAIRE

The purpose of this questionnaire is to help clarify the types of activities you propose to undertake. The questions are meant to help identify the level of environmental risk that may be associated with the proposed activity. The Division of Land's evaluation of environmental risk for the proposed activity does not imply that the parcel or the proposed activity is an environmental risk from the presence or use of hazardous substances.

Through this analysis, you may become aware of environmental risks that you did not know about. If so, you may want to consult with an environmental engineer or an attorney.

Address	City	State	Zip
NA	(907) 490-2206	Bill Jeffress	
Home Phone	Work Phone	Contact Person	

Describe the proposed activity:

To develop mine infrastructure (pits, mined rock disposal areas, stockpiles, haul roads), an access road, and a powerline to support the proposed True North Mine Project.

In the course of your proposed activity will you generate, use, store, transport, dispose of, or otherwise come in contact with toxic and/or hazardous materials, and/or hydrocarbons? Yes ☒ No ☐

If yes, please list the substances and the associated quantities. Use a separate sheet of paper, if necessary.

Proposed fuel and waste oil storage are as follows:

Diesel fuel storage totaling 24,000 gallons

Heating oil storage totaling 10,000 gallons

Unleaded gasoline storage totaling 4,000 gallons

Waste oil storage totaling 10,000 gallons

If the proposed activities involve any storage tanks, either above or below ground, address the following questions for each tank. Please use a separate sheet of paper, if necessary, and, where appropriate, include maps or plats:

- Where will the tank be located? **See the attached True North Mine Project Description, Figures 2-2, 2-3, & 2.4.**
- What will be stored in the tank? **Gasoline, diesel fuel, motor lubricants, heating oil, and waste oils.**
- What will be the tank's size in gallons? **Final design is not completed – however, the largest tank will hold approximately 10,000 gallons.**
- What will the tank be used for? (Commercial or residential purposes?) **See True North Mine Project Description**
- Will the tank be tested for leaks? **NA**
- Will the tank be equipped with leak detection devices? Yes ☒ No ☐. If no, describe: **All fuel vessels will have secondary containment and have leak detection and collection systems. All tanks and dispensing stations will be in containment areas designed to hold at least 110% of the volume of the largest tank. Dispensing lines will have automatic shutoff devices.**

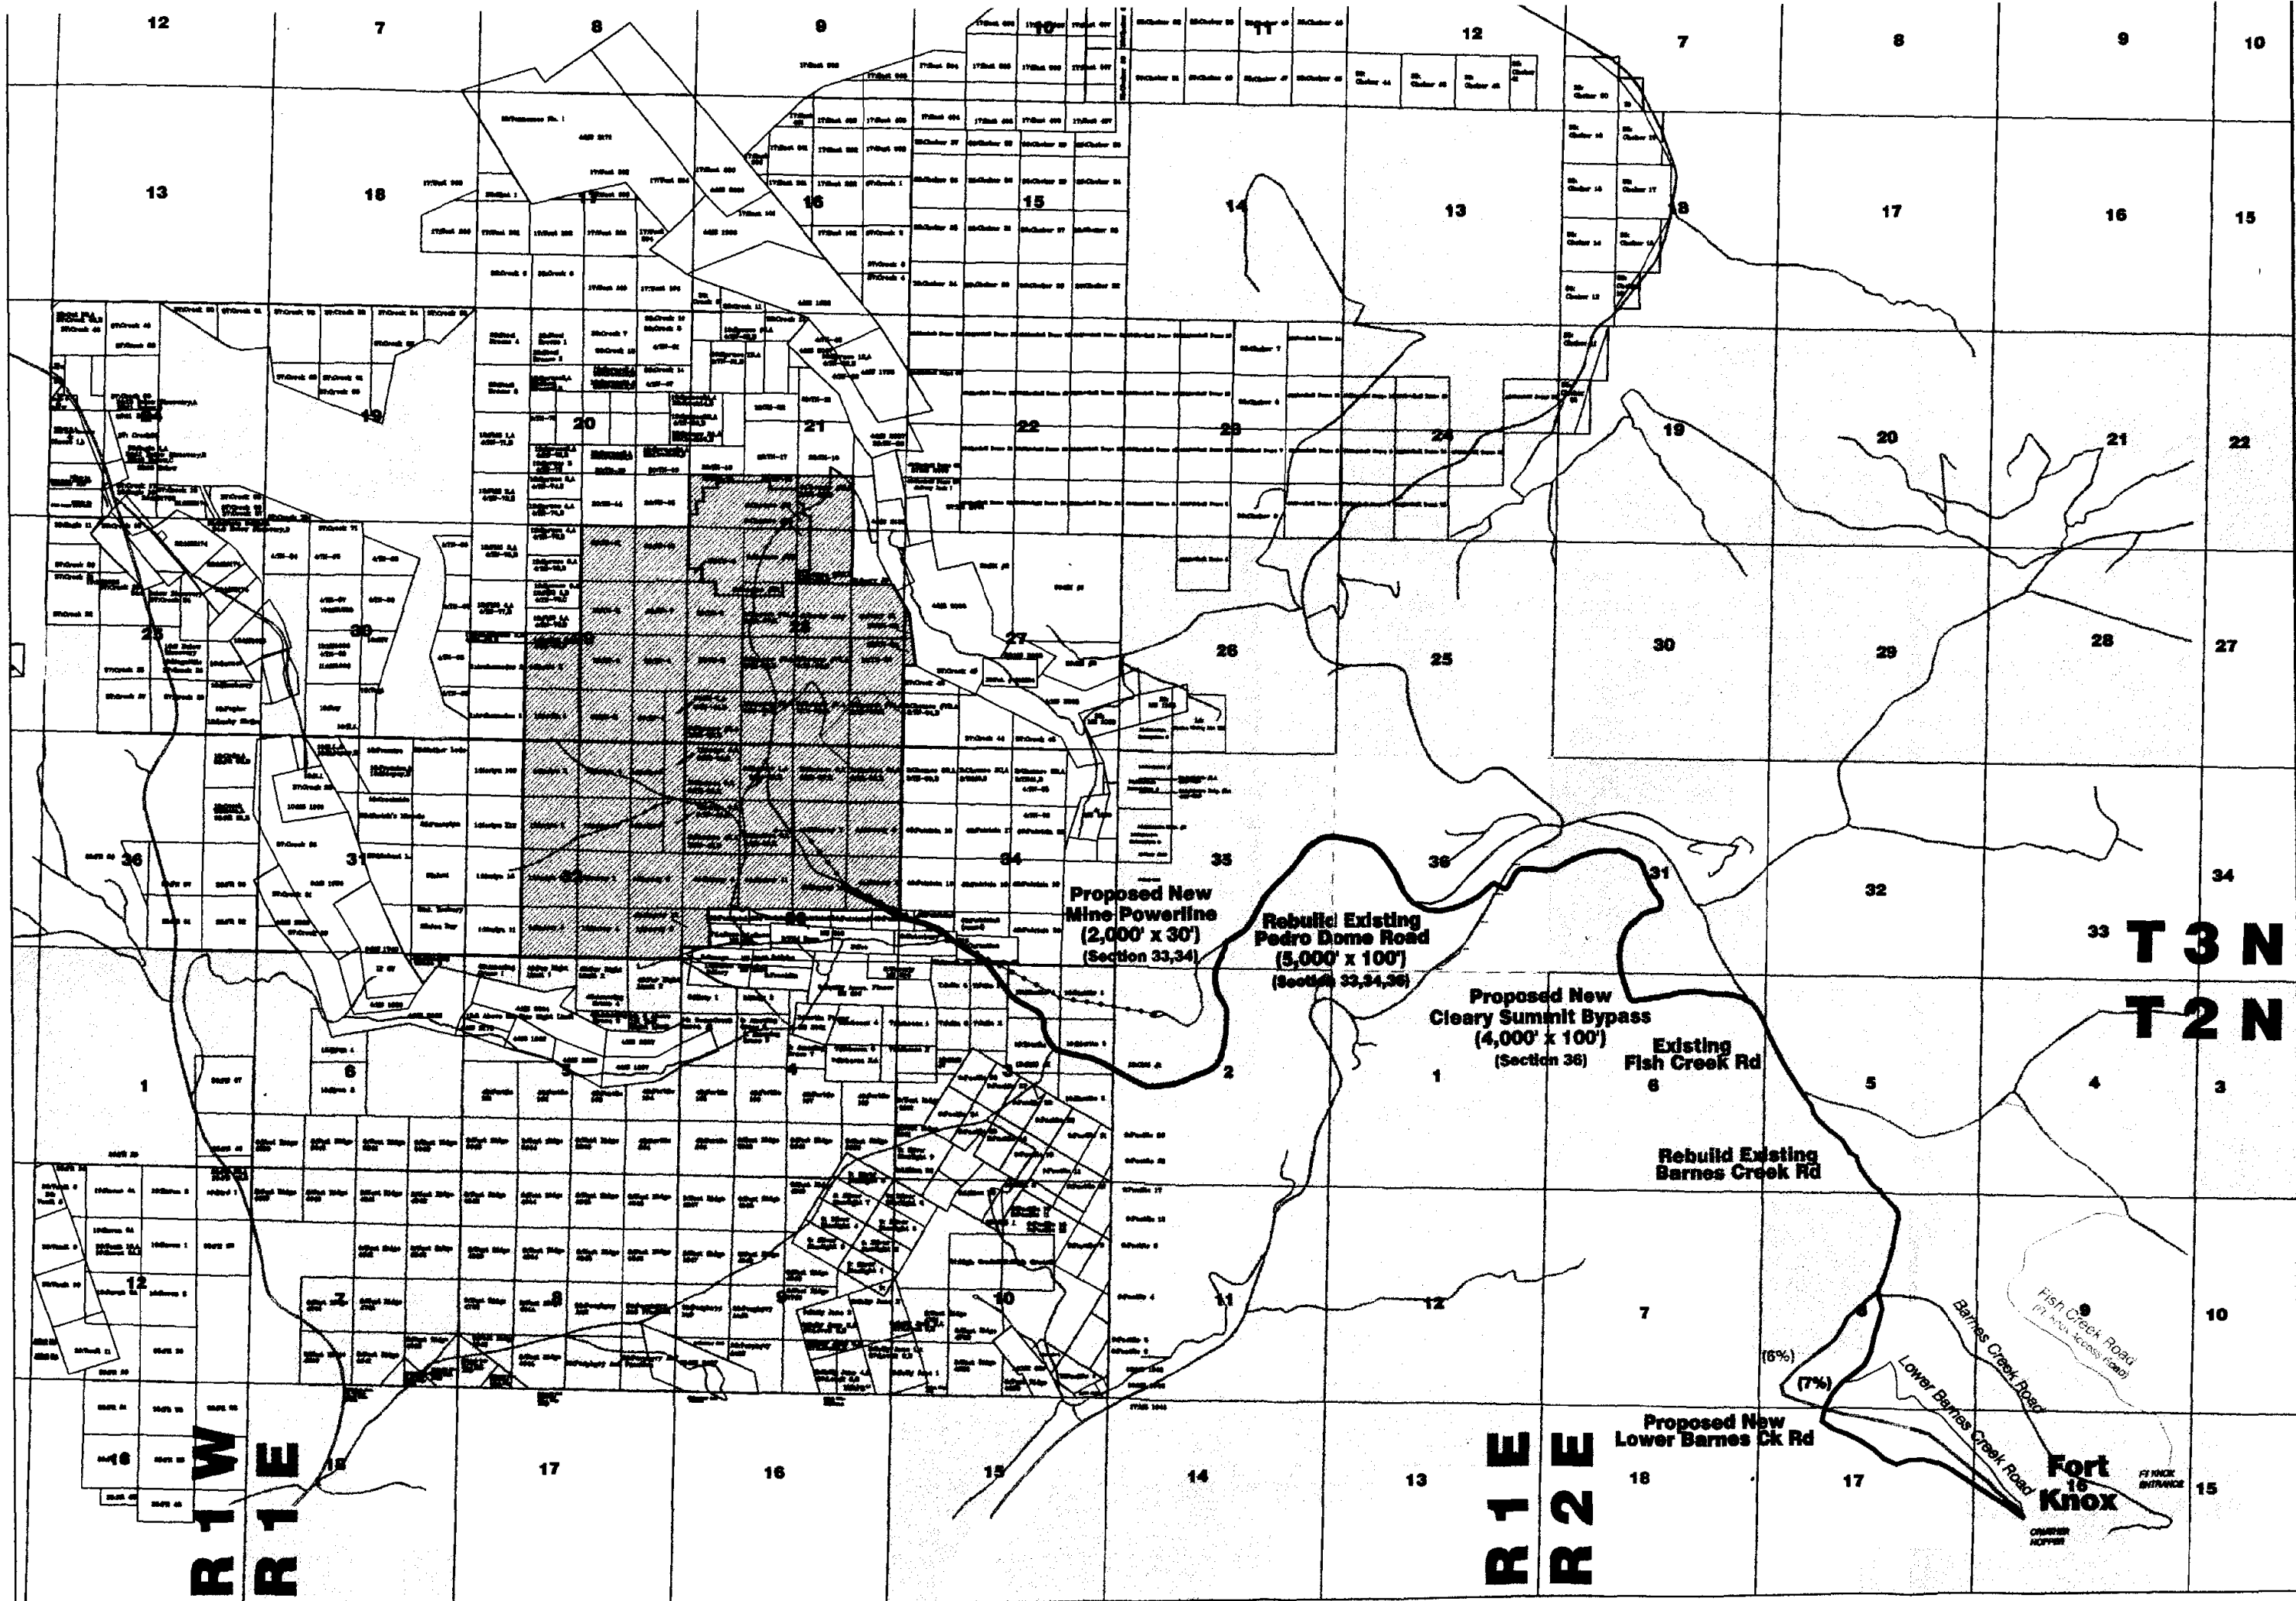

Do you have any reason to suspect, or do you know if the site may have been previously contaminated? Yes ☐ No ☒.
If yes, please explain: _____

I certify that due diligence has been exercised and proper inquiries made in completing this questionnaire, and that the foregoing is true and correct to the best of my knowledge.

M-940742, N-940742, O-940742, and P-940742 Waterway Murray Creek 2
True North Project.

Dear Messrs. Becker and Phillips:

Fairbanks Gold Mining, Inc. (FGMI) submits the attached applications and supporting documents to initiate the permitting process for the True North Project. The attached information accurately describes the proposed operation, but additional work and results of analyses will further clarify the project. As discussed during previous meetings on February 18, 2000 and on March 7, 2000, the DA presently has all of the wetland delineation reports, flora and fauna studies, and cultural resource surveys completed for the True North Project area. Any new information that becomes available will be submitted to you to assist in your evaluation of the project as well as that of the general public and specifically those stakeholders in close proximity of the proposed activities. The Socioeconomic Report for the True North Project is one such document that will be forwarded to your respective offices on or before April 3, 2000 as an addendum to this application.

If you have any question or require additional information, please call Bill Jeffress, our designated agent at (907) 490-2206.

Respectfully,

Thomas E. Irwin
Vice President / General Manager
